

ABDUL HADI BUTT

SOFTWARE ENGINEER | MACHINE LEARNING ENGINEER

CONTACT

- 03034844244
- abdulhadi20032922@gmail.com
- Lahore

EDUCATION

2021-2025
FAST-NUCES LAHORE

- Bachelors : Software Engineering
- CGPA: 2.7

SKILLS

- Strong Python Programming
- Neural networks
- Machine Learning Models
- F1score, Confusion Matrix,Z-Score Testing
- Support vector machines
- Supervised learning
- Statistical modeling
- Html,css,tailwind,javascript
- TensorFlow framework
- Natural language processing
- Decision trees, Opencv
- Generative AI
- Keras, Matplot library
- Scikit-learn,Pytorch
- ChatBots
- Prompt Engineering

PROFILE

Analytical and motivated, with a solid foundation in machine learning principles. Proficient in Python and TensorFlow. Skilled at building effective ML solutions to solve real-world problems.

WORK EXPERIENCE

Final Year Project

AI Healthcare Bot:

Developed an AI-based chatbot to improve healthcare access in rural Pakistan by providing symptom analysis, first-aid advice, and nearby facility locations using geolocation. Implemented with Python (Flask), MongoDB, React, OpenAI API, and Google Translate for Urdu-English support and multilingual accessibility

Other AI/ML Projects

- Fake News Detection with Natural Language Processing
- Traffic Sign Recognition using Convolutional Neural Networks
- Emotion Detection from Text using NLP
- Stock Price Forecasting with LSTM Networks
- Credit Card Fraud Detection using Random Forest
- Customer Churn Prediction for Telecom Companies
- Air Quality Index Prediction using Regression Models
- Loan Default Prediction using Decision Trees
