📍 Ali town, Lahore. 📅 Aug4, 2002 🇵🇰 Pakistan 🏹 Male

🎓 Professional Summary

Fresh and dedicated Computer Science graduate with practical experience in Python development, front-end web technologies, and data handling. Proven ability to build real-world applications like a career guidance system and data dashboards. Highly motivated to join a dynamic tech environment where I can grow as a developer and deliver valuable solutions. Known for quick learning, teamwork, and clean code practices.

🎓 Education

Bachelor of Science (BS) in Computer Science

COMSATS University Islamabad, Sahiwal Campus
2021 – 2025

CGPA: 3.28 / 4.00

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Web Development, Operating Systems

🧠 Technical Skills

Languages & Tools: Python, C++, JavaScript, HTML5, CSS3, Bootstrap, MySQL, Git, GitHub, VS Code

Concepts & Frameworks: Object-Oriented Programming (OOP), File Handling & Data Processing, DOM Manipulation, Responsive Web Design, Data Visualization (Matplotlib)

🔗 Final Year Project

Personal Expense Tracker

Python | April 2025

- Built a console-based expense tracker app that allows users to add, view, search, and delete daily expenses
- Data is stored persistently using a CSV file, enabling multi-session tracking and reporting
- Implemented category-wise filtering, total monthly summary, and input validation
- Tech Used: Python (CSV, File Handling, Functions, Conditional Logic)

📁 University Projects

Career Recommendation System

Python, CSV, Rule-Based Logic | Nov 2023

- Developed a system to recommend careers based on users' skills and interests
- Used a lightweight dataset and scoring logic to map inputs to careers (e.g., Software Engineer, Graphic Designer)
- Focused on logical rule-matching instead of machine learning for simplicity
- **Tech Used:** Python, File Handling, Conditional Logic

Responsive Portfolio Website

HTML, CSS, JavaScript | July 2024

- Built a personal portfolio website featuring projects, contact form, and animations
- Implemented a mobile-friendly responsive design
- **Tech Used:** HTML, CSS, JavaScript

Student Performance Dashboard

Python, CSV, Matplotlib | October 2024

- Created a Python tool to analyze and visualize student performance using CSV files

Courses

Python for Everybody – Coursera•
Responsive Web Design – freeCodeCamp• **Git & GitHub Crash Course** – YouTube•
Freelancing – DigiSkills

Interests

Reading Tech & Self-Development Books, Fitness & Gym Training, Exploring Open Source Projects, Solving Logical Puzzles & Challenges

- Plotted charts to show averages and subject-wise breakdowns
- **Tech Used:** Python, File Handling, Matplotlib

Professional Development

- Attended tech seminars and workshops on AI and cybersecurity organized by COMSATS
- Participated in industrial visits to leading IT parks and software companies in Lahore
- Gained exposure to real-world applications of software engineering, networking, and data infrastructure
