Summary

A highly skilled and results-oriented Senior Frontend Developer with 6 years of experience in building scalable and responsive web applications. Proven ability to lead development teams, optimize performance, and integrate complex APIs to deliver exceptional user experiences.

WORK EXPERIENCE

Cybergen – Senior Frontend Developer

Feb 25 – Present

- Engineered and maintained the official company website, significantly improving page load speed by 40% and ensuring 100% mobile responsiveness across all devices.
- Developed and optimized a team management system (**Grit**).
- Participated in code reviews and debugging sessions to uphold code quality and functionality.
- Integrated diverse third-party APIs into the Flyzone platform, enhancing functionality and scalability for a growing user base.

Qbatch – Senior Frontend Developer

June 22 – June 25

- Directed the development of the official company website utilizing Gatsby, integrating Strapi as a headless CMS and GraphQL for efficient data fetching
- Mentored three junior developers, elevating their design implementation and code efficiency, resulting in a 15% reduction in code review revisions.

PROJECTS

FlyZone.ai – <https://flyzone.ai>

Role: Senior Front-End React Developer

July 25

- Collaborated with a cross-functional team to develop and maintain the front-end of FlyZone.ai using React.js and Bootstrap.
- Contributed to an AI-driven drone training platform offering personalized simulations in diverse environments.
- Implemented new features in collaboration with cross-functional teams, enhancing user engagement and experience.
- Prioritized intuitive design principles for improved user experience, emphasizing clarity and ease of navigation.

Cybergen – <https://cybergen.com>

Role: PHP/Blade Front-End Developer

March 2025

- Engineered dynamic and responsive user interfaces utilizing Laravel's Blade templating engine, bolstering the platform's usability and maintainability.
- Optimized front-end performance by deploying efficient Blade components and adhering to Laravel development best practices.
- Achieved a 25% improvement in page load times through front-end performance optimizations.

Qbatch – <https://qbatch.com/>

Role: Senior Frontend Developer

September 24

- Translated UI/UX designs into functional interfaces using HTML, CSS, and **JavaScript**.
- Transformed the site into a **Gatsby static site**, integrating data with **Strapi** as the headless **CMS**.
- Enhanced SEO on the official site by adding schema markup, meta tags (title and description), and implementing server-side rendering (SSR) for the blog.

Ecomcircles.com – <https://ecomcircles.com/>

Role: Senior Frontend Developer

August 24

- Designed UI and **integrated REST APIs** for an e-commerce platform **automating drop shipping**, inventory, and order processing.
- Built responsive UI components in **React.js with SCSS** and Bootstrap, increasing user **engagement by 40%** and reducing **load time by 30%**.
- Integrated various third-party services (Walmart Marketplace, MWS Seller, EasyPost, and Stripe) and deployed Webhooks for real-time data exchange.

Storefilter.com – <https://www.storefilter.com/>

Role: Senior Frontend Developer

April 24

- Architected a web application and **Chrome extension** to process over **3 million Shopify stores**.
- Integrated internal APIs, the **Chargebee payment module**, and **Intercom chat support**.
- Optimized the Vue.js application, achieving 70% faster page loading and a 50% reduction in build size.

EDUCATION

Government College University Faisalabad-BS Computer Science

SKILLS

-
- **Programming Languages:** JavaScript
 - **Frontend Development:** React.js (Redux, Hooks, Next.js, React-Redux, Gatsby), Vue.js, Tailwind CSS, Ant Design, Material UI, React Bootstrap, Styled Components, Async Programming
 - **APIs & Backend:** REST API, Strapi
 - **Tools & Version Control:** Git, VS Code, Postman, Figma
 - **Architectural Concepts:** Design Patterns, Functional Programming, Authentication (OAuth 2, JWT), Input Validation, Pagination, Feature Toggles, Lazy Loading, Prototype Development
 - **Soft Skills:** UX/UI Collaboration, Strong Communication, Collaborative Team Player
