SUMMARY

Passionate Software Engineer with solid basics in full-stack development React, Node.js, MongoDB, a strong foundation in OOP, DSA and experience with MySQL and MongoDB Databases. Ability to deliver impactful projects. Eager to leverage my problem-solving skills and technical proficiency to contribute to innovative teams while growing as a fresher in the industry.

EDUCATION

BS Computer Science <i>University of Engineering and Technology</i>	11/2021 – 05/2025 Lahore
Intermediate <i>Government Degree College</i>	04/2019 – 09/2021 Sharaqpur Sharif

FINAL YEAR PROJECT

Machine Learning-Based Non-Invasive Glucose Monitoring System (MLNGMS) • Developed a non-invasive glucose monitoring system using IoT sensors and machine learning algorithms • Built an end-to-end solution with Flutter mobile app and Node js backend for real-time data processing • Trained ML models achieving 85% accuracy in diabetes risk prediction from sensor data • Implemented an AI-driven nutrition advisor that generates personalized meal recommendations	09/2024 – 04/2025
---	-------------------

PROJECTS

AI-Career Counselor <i>MERN OpenRoute API</i> • Analyzes resumes and user input to provide personalized career suggestions using AI. • Includes features like resume upload, suggestion comparison, bookmarking, and secure authentication.

AI-Code Reviewer <i>React Tailwind Gemini API</i> • Reduced code review time and check flaws by automating issue detection and suggestions. • Supported multiple languages Python, Java, JavaScript, C/C++ with real-time feedback.

Voice Controlled Todo App <i>React Web Speech API</i> • Built a task manager using React and Web Speech API, enabling voice commands for adding, updating, deleting todos. • Demonstrated cutting-edge use of voice recognition to enhance productivity and user experience.
--

SKILLS

Frontend: React.js, Tailwind CSS, HTML, CSS, Flutter
Backend: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL, Firebase
Version Control & Tools: Git, GitHub, Postman, Vercel, VS Code
Programming: JavaScript, C++, SQL
Other: Data Structures & Algorithms, Code Optimization, Debugging

COURSES

- | | | |
|----------------------------|-------------------------------|---------------------------------|
| • Programming Fundamentals | • Object Oriented Programming | • Data Structure and Algorithms |
| • Database System | • Operating System | • Web Technologies |

CERTIFICATE

- Web Hackathon - Certificate of Participation at PUcon
- Problem Solving - Certification from Hacker Rank
