## PROFILE

I'm a dedicated and passionate React and Next JS/TS Frontend Developer with more than 4 years of hands-on experience in the tech industry, including **2.5 years as a Frontend Developer** and **1.5 years as a Software Quality Assurance (SQA) Engineer**. I specialize in building modern web applications using React JS, Next JS, JavaScript and TypeScript. I am eager to contribute to innovative projects and collaborate with motivated teams to drive impactful outcomes. I am self-motivated, results-driven, and always ready to take on new challenges.

## EXPERIENCE

### React JS Developer | [Sozie](#), Lahore, PK (Full Time) (Jul 2022 – Present)

Sozie is a user-generated content platform where users can try products like clothing, accessories, and food from retailers like Target and Walmart. Sellers provide products for review, and users share feedback and images, which are published on the retailer's website to boost buyer confidence.

#### 1. Sozie Portal

- **Back Office Portal:** Developed for our moderation team to manage posts and for other internal uses for client engagement.
- **Seller/Retailer Portal:** Developed for sellers and retailers to order reviews for products listed on platforms like **Target** and **Walmart**.
- To enhance code efficiency and maintainability, I implemented reusable components and custom hooks, which effectively extracted complex logic.
- **Collaborating with cross-functional teams** to develop and implement new features, fix bugs, enhance existing functionalities, and optimize overall dashboard performance.
- Utilized project management tools like **Slack**, **Trello**, and **Jira** for task tracking, team collaboration.

**Tools and Technologies used:** JavaScript, React, ES6+, React Router, Redux, Context API, Material UI

#### 2. Sozie WordPress Website Maintenance

- **Embedded Google Search Console** for SEO monitoring and indexing.
- **Integrated Google Analytics** for traffic and behavior insights.
- **Redesigned the website** to improve user experience and interface consistency.
- **Regularly maintain and update** the website to ensure optimal performance and security.

### React JS Developer | [DevStax](#), Lahore, PK (Part Time) (Jan 2024 - Aug 2024)

**DevStax** offers professional services in static and dynamic web development, search engine optimization (SEO), and mobile application development.

- Developed **reusable and optimized UI components** to enhance application performance and maintainability.
- Effectively managed application state using **Redux** for predictable and scalable state handling.
- Implemented **Roboflow's API** in a **Health Care** project to detect facial acne and visually highlight affected areas on the UI.
- Collaborated closely with **cross-functional teams** to design new features, resolve bugs, and ensure smooth product delivery.

**Tools and Technologies used:** JavaScript, TypeScript, React JS, ES6+, Redux, Material UI, Chakra UI

## Frontend Dev. Internship | [GenXe \(SMC - Pvt\) Ltd, Lahore, PK](#)

(Jan 2023 - Jun 2023)

**GenXe** offers professional services in static and dynamic web development, search engine optimization (SEO), and digital Marketing.

- Learned WordPress Development
- Build WordPress Static/Introductory Websites
- Learned JavaScript frameworks to create dynamic and interactive content.
- Learned Basic React.js

## Software Quality Assurance | [Halcon Tech, Lahore, PK](#)

(July 2021 - Dec 2022)

**Halcon Tech** offers professional services in static and dynamic web development, search engine optimization (SEO), and digital Marketing.

- Conduct thorough manual testing across web and mobile applications, including functional, frontend, and cross-browser testing.
- Efficiently identify, log, and track defects using tools like JIRA and Trello, following a complete Software Test Life Cycle (STLC) and Software Bug Life Cycle
- Utilize Postman for API testing.
- Work closely with development teams to communicate issues, verify fixes, and ensure the delivery of high-quality software products.

## EDUCATION

**BS COMPUTER SCIENCE** | LAHORE GARRISON UNIVERSITY

(2016 - 2020)

**F.SC (PRE-ENGINEERING)** | LAHORE GARRISON COLLEGE FOR BOYS

(2014 - 2016)

## SKILLS

**Advanced:** React JS, JavaScript, HTML, CSS, GitHub, Git

**Intermediate:** WordPress, Shopify

**Beginner:** Node JS, Express JS, Mongo DB

**Soft Skills:** Communication, Teamwork, Problem-solving

## PROJECTS

**React JS Developer** | [PatientXpress, India](#)

(Oct 2024 - April 2025)

**PatientXpress** is an India-based healthcare software company offering a robust SaaS platform specifically designed for dental practices. Their product includes a wide range of features such as appointment management, patient portals, doctor portal, insurance verification, and more.

- **Patient Portal: Revamped the Patient Portal** by enhancing the UI/UX design and resolving critical bugs, resulting in a smoother and more intuitive experience for users to book appointments online.
- **Doctor Portal: Developed a comprehensive doctor dashboard** that enables practitioners to seamlessly view and manage booked appointments, as well as schedule appointments on behalf of patients.
- To enhance code efficiency and maintainability, I implemented reusable components and custom hooks, which effectively extracted complex logic.
- Utilized project management tools like **Trello**, and **Microsoft Teams** for task tracking, team collaboration.

**Tools and Technologies used:** Next JS, TypeScript, ES6+, Redux, React Query, React Big Calender, Tailwind CSS

## ACTIVITIES

Engage in cricket, table tennis, and snooker, enjoy traveling, and I am committed to continuously learning new skills.
