bilaliftikhar431@gmail.com

Lahore, Pakistan

Full Stack Software Engineer with **3+ years** of hands-on experience in building scalable web applications using **Laravel (PHP)**, **JavaScript**, and modern frontend frameworks including **React.js**, **Next.js**, and **Vue.js**. Proficient in both relational (MySQL) and non-relational (MongoDB) databases, with strong expertise in developing **RESTful APIs**, managing backend logic, and crafting responsive, user-focused interfaces. **Passionate** about clean code, continuous learning, and contributing to impactful products. Currently seeking opportunities to collaborate on innovative projects, grow within a **dynamic team**, and take on new technical challenges.

SKILLS & CORE COMPETENCIES

- **Frontend:** Next.js (SSR & SSG), Vue.js, React.js, Tailwind CSS, TypeScript
- **Backend:** PHP, Laravel, Codeigniter
- **Storage Services:** Supabase Buckets
- **Databases:** MySQL, PostgreSQL, MongoDB, sequelize, mongoose
- **E-Commerce:** Shopify (Liquid, Custom Themes), Headless Storefronts
- **APIs:** REST, 3rd-party API integrations
- **DevOps & Tools:** Git, GitHub, CI/CD, Vercel, Netlify

PROFESSIONAL EXPERIENCE

Senior Software Engineer June 2021 – Present

Algolix Technologies

- Developed and maintained **scalable web applications** using **Laravel (PHP)** for the backend and **Vue.js**, **Next.js**, and **React.js** for dynamic, responsive front-end development.
- Integrated **RESTful APIs** and third-party services (e.g., payment gateways, OAuth providers, analytics tools), expanding core functionality and reducing external integration time by **30%**.
- Collaborated with **product managers** and **UX/UI designers** to translate business requirements into high-performance interfaces, reducing feature delivery time by **25%**.
- Optimized **MySQL queries**, achieving up to **40% improvement in page load times** and reducing server resource usage in high-traffic environments.
- Diagnosed and resolved **critical bugs**, improving system uptime by **15%** and enhancing the overall **user experience** across platforms.
- Contributed actively to **Agile development** processes including **daily standups**, **sprint planning**, and **retrospectives**, resulting in a **20% increase in sprint velocity**.
- Utilized tools like **Git**, **GitHub**, and **Jira** to manage source control and track progress in a collaborative, team-based workflow.
- Conducted **code reviews** to ensure adherence to coding standards and best practices, leading to a **35% improvement in code quality** and a **20% reduction in post-deployment issues**.

PROJECTS

PoolStore <https://poolstore.co.uk>

PoolStore is the UK's leading online retailer for swimming pool and spa supplies, offering a wide range of products from pools to maintenance equipment.

IGIVU <https://igivu.com>

IGIVU delivers end-to-end XR solutions in VR, AR, and MR, empowering 3,000+ organizations including Stanford with immersive experiences.

Logistivo <https://logistivo.com/en>

Contributed as a frontend developer to Logistivo, building a responsive web interface from Figma designs for a logistics platform connecting customers with carriers.

Trade In <https://www.tradeinupvc.com>

Trade In - WC provides premium, custom uPVC window and door solutions in Pakistan, combining 13+ years of expertise with quality and modern design.

The Little Mate <https://thelittlemate.pk>

Shop a charming selection of baby clothes, toys, and essentials—crafted for comfort, quality, and joyful parenting.

EDUCATION

Bachelor's in Information Technology 2017 – 2021

University of Agriculture Faisalabad

- Gained knowledge of **system analysis**, **software architecture**, and designing **scalable and efficient applications**.
- Designed and optimized **relational** and **non-relational** databases using **SQL**, **Firestore**, and **MongoDB**, focusing on data modeling and query optimization.

KEY STRENGTHS

- **Full-Stack Development:** Experienced in both frontend and backend development using **Vue.js**, **Next.js**, **Tailwind CSS**, **Laravel (PHP)**, and **RESTful APIs**. Capable of handling end-to-end application development with a focus on performance and scalability.
- **E-commerce & ERP Expertise:** Developed **custom Shopify stores** and integrated third-party APIs for payments and analytics.
- **Project Delivery & Code Quality:** Demonstrated ability to manage timelines, collaborate cross-functionally, and deliver projects within budget.
