Aspiring Computer Scientist with a strong desire to apply my technical skills and problem-solving abilities to contribute to organizational success. Eager to grow in a dynamic and challenging environment while continuously learning and adding value to the team.

EDUCATION

University of Engineering & Technology Lahore, Pakistan

June 2025

Bachelors in Computer Science

Subjects of interest: Object-Oriented Programming (OOP), Programming Fundamentals (PF), Web Development, Software Engineering, Design Patterns, Computer Organization and Assembly Language, Database Systems, Compiler Construction, Digital Logic Design (DLD), Theory of Automata, Natural Language Processing (NLP), Leadership Strategies (LS), Data Structures and Algorithms (DSA),

SKILLS

Technical Skills

- **Programming Languages:** C++, C#, Java, JavaScript
- **Frontend Development:** HTML/CSS, Bootstrap, Figma, Vue.js
- **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Desktop Applications:** .NET (Windows Forms / WPF)
- **Database Programming:** MySQL, SQL Server, MongoDB
- **Version Control:** Git, GitHub, GitHub Desktop
- **Tools & Platforms:** Visual Studio, VS Code, MS SQL Server, Slack, ClickUp, Overleaf

Soft Skills

- Communication and Team Collaboration
- Adaptability and Willingness to Learn
- Knowledge of Agile and Scrum Methodologies
- Problem-Solving and Time management

PROJECTS

- **Book Store Management System**

desktop Application using .Net Framework

I had used C and C++(OOP and DSA) concepts in it.

- **Ambulance Management System**

Desktop Application using .Net Framework

I had used C and C++ (OOP and DSA) concepts in it.

- **FYP management system**

desktop Application using SQL and .Net Framework

I had used c and SQL (DB) concepts.

- **Unani Medicines system**

web Application using MERN Stack

A mini project

- **Unani GPT**

Final Year Project – Web Application

Developing a clinical decision support web application that provides detailed information on diseases, symptoms, cures, and Unani treatments using advanced AI techniques such as zero-shot learning and Retrieval-Augmented Generation (RAG). The system also incorporates OCR for text extraction from Unani medicine books.

Technologies: Vue.js, Node.js, MongoDB, OCR, Zero-Shot NLP, RAG
